OFFICE OF INVESTIGATIONS

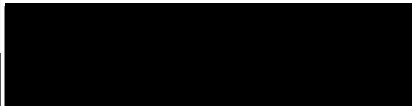

MEMORANDUM OF INVESTIGATION

Case Number: A09-86

Page 1 of 1

I spoke again on the phone with Dr. Hank Foley the VPR at Penn State University (PSU). We received a copy of their inquiry report which determined that there was no substance to the allegations that he falsified or fabricated data. However, they could not definitively determine that he did not engage in actions that seriously deviated from accepted practices within the scientific community. Therefore, they are moving forward with an investigation on that one issue.

During my conversation with Dr. Foley I explained that we would be sending an investigation referral letter to them very shortly.
