Good Morning,

Security was made aware of this meeting earlier this week. Security has already performed the necessary checks and begun to process the uncleared individuals for temp access. However, in order to forward the request to the Office of Security Operations, we have to attach your approval for the meeting.

Please let me know if you have any questions about the security end of this meeting.

Thank you,

Nick Robinson

Kim,

Sorry to be a pain, but which section is providing the threat briefings? Shouldn't this go to that section or at least Dena's section for security clearance purposes? I don't know anything about this or who these people are.
