Thank you, Adrian.

In this context, do you only have information regarding targeting, or can you confirm successful compromise of the accounts?

Regards,

Michael

Gentlemen,

Related to this, the following accounts may have been targeted:

fernandezM@dnc.org
MeloyS@dnc.org
RiveraP@dnc.org

Also, FireEye released an excellent report on the activity, 16-00013238 CE.

Subject: Notification

Gentlemen,

It's come to our attention there may be an ongoing COZY campaign. This campaign is slightly different than previous campaigns. The campaign seems to include a .doc or an .xls (possibly Eurasia themed) containing macro-malware. Previous campaigns used a hyperlink to a .zip file. Phishing e-mails may actually originate from vt.edu and be spoofed to look as if they come from a legitimate source (i.e., a think tank).

The domain:
democrats[.]org

may have been targeted in this campaign.

?

CrowdStrike - Please advise if any additional information can be provided and/or if activity is observed.

(CyD and CY-3 A/SSA cc'd)

v/r,
Adrian
