He works closely with Charlie baker. [Leslie.dach@outlook.com](mailto:Leslie.dach@outlook.com) is his email.

He was involved at a high level with convention at least.

?Good evening gentlemen,

Have information that a Microsoft email account (Office 365?) used by Mr. Leslie Dach? may be compromised, and trying to get contact information for that individual to confirm.

It's my understanding (this may change, couple of moving parts) Mr. Dach's local FBI office will ask him to confirm his accounts, and provide additional information on how to restore access. ?

I have the file. It's 125MB so I can't attach on this system. I'll try and get to you first thing tomorrow somehow. In the mean time I attached a file listing.

Looks like it was uploaded to VirusTotal:

Adrian,

I just spoke with Elliot Peterson from Anchorage – he said Pittsburgh has everything that was posted. Is there a way for you to get that to us?

Thanks,

Michael

?

We just got notified by some industry personnel that some previously unreleased DNC documents were uploaded to Virus Total today. In the files there was a contact list that I attached here with lots of personal emails for people.

Rumor is that these files are supposed to be the network share for a guy named Mike Conlow who worked IT until April 2011. The VT hash:

(NFI), may have more info tomorrow.
