4073	9/26/2016	22:02:11	From: jjsoo To: asands	Searching the current and historical lists of Tor exit nodes published by the Tor Project (torporject.org) covering the time period of May 4 2016 - Sept 4 2016, no matches of the Spectrum Health IP (167.73.110.8) were found. Normally, a Tor exit node would appear in this list if it were active during the reveiwed time period. Under normal conditions, the historical data used for searching is captured at a a rate of once per hour, every hour, every day.	Message	text/html

4077	9/26/2016	22:06:27	From: asands To: jjsoo	I want to add something like this: This is further evidence that the white paper?s claim about SPECTRUM HEALTH being an exclusive exit node for ALFA BANK is not supported by technical analysis. Further, the use of Tor networks is inconsistent with Russia?s TTPs for obfuscating its network activities.	Message	text/html
